

Working with United Carolina Group was one the most pleasant experiences of our building project. Jamie is very knowledgeable about financing options and mortgage products. It was important to feel confident that we got the best product for our situation (and our budget).

The loan closing process went very smoothly. Trisha took care of everything for us. She made sure we were informed and made the entire process stress free. Most of all we were treated so kindly and shown that our business was appreciated. When you are greeted with a sincere and warm welcome, when all the details are handled very professionally, it just means so much.

When we built our dream home, careful thought went into every detail. That included carefully considering how we would arrange for financing. We checked out several options before selecting United Carolina Group. We choose them for several reasons:

Reputation, Reputation, Reputation!

For us this meant:

- knowledgeable and experienced mortgage consulting;
- the right product fit for our situation;
- professional handling of all details;
- friendly, caring, and personalized attention.

All of which made this important phase of our project the most stress free of all!
